

WALID BEN SAID

Applied Computer Science Engineering Student

Sousse, Tunisia | (+216) 50 463 017 | WALID.BenSAID@eniso.u-sousse.tn
linkedin.com/in/walid-ben-said-895882276

Engineering student at the National Engineering School of Sousse (ENISo) with a strong mathematics foundation and hands-on experience in web development, embedded systems, and IoT. Skilled in Python, JavaScript, React, and SQL, and actively involved in student organizations, with a proven record of teamwork and event coordination.

PROFESSIONAL EXPERIENCE

Member Present
Junior Entreprise ENISo (JEENISo), ENISo
Contribute to a non-profit student association run by future engineers, working in teams on projects for clients.

Member Present
ACM ENISo Branch, ENISo
Take part in the activities of the ACM student chapter, promoting computing knowledge and collaboration among engineering students.

Member Present
ODCCE, ENISo
Collaborate with the team on technical projects, including the development of the Protask project management application.

Engaged Member 2022 – 2026
Association Jeunes Artistes (AJA Sousse / JAT Sousse), Sousse
Contributed to the planning and delivery of cultural and artistic events open to the public, within a multidisciplinary team.

- Helped organize events including *Black & White*, *Megyes* (musical event), *The Nights of the Museum*, and the association's first art gallery, *Standing By Eve*.
- Took part in a public mural project in Hammam Sousse and supported the partnership with Elbiro.

PROJECTS

Protask – Project Management Application
In collaboration with ODCCE
Contributed to a web application for managing projects, tasks, and team collaboration.

Intelligent Class
ENISo TEAM (Robotics Club)
Worked in a team on a smart-classroom solution based on microcontrollers and IoT technologies (Arduino, ESP32).

Personal Portfolio Website
Personal project
Designed and built a responsive website showcasing projects and skills, using HTML, CSS, and JavaScript.

EDUCATION

Engineering Degree in Applied Computer Science 2026 – Present
National Engineering School of Sousse (ENISo)

Preparatory Class for Engineering Schools 2024 – 2026
Preparatory Cycle

Baccalaureate Degree in Mathematics 2024
Secondary Education

SKILLS

Technical: Python, JavaScript, React, SQL, HTML, CSS, Arduino, ESP32
Professional: Teamwork, event organization, project coordination, communication
